SUBJECT: Request to Give an Oral Presentation

1. I request permission to give two oral presentations on China's energy situation on March 14 and 15 to students and faculty of [REDACTED] Ann Arbor.

25X1

25X1

2. Both presentations will be based on research I have just completed on China's energy supply and demand situation with particular emphasis on how and in what forms energy is consumed in China. I will also point out the importance of the current offshore oil exploration program to China's energy balances in the 1990s. This research will form the basis for an article I am scheduled to write for the 1984 JEC volume on China--an unclassified version of a paper that is currently in review.

[REDACTED] editor of the volume, will attend the seminar and I hope to pick up some useful comments.

3. None of the material to be used in the presentation is classified. No press personnel will be invited.

4. [REDACTED] I will be identified as an Agency employee but will make the standard disclaimer indicating that the views expressed are my own and not necessarily those of the Agency or the US government.
